A.1 EXECUTIVE SUMMARY

The Government has a requirement to maintain mission support and transport military supplies via a wheeled vehicle fleet. As part of the performance requirements, the vehicles are operationally tested for various environments and different ground conditions. All having a common need to maintain vehicle mobility if a tire failure were to occur.

The current fleet of Heavy Tactical Trucks (HTT) requires the use of having an available spare tire to be field replaceable allowing any intended mission to be completed. Added weight and storage space to house the spare tire reduces the vehicles capabilities for maximum utilization. The use of a Run Flat system capable of meeting defined distances and load requirements would benefit and utilimately help support our Soldiers.

This requirement will be filled through issuance of a Cost-Plus-Fixed-Fee contract awarded on a sole source basis to Drive Dynamics, based on work previously developed under CRADA #04-15.

DEVELOPMENT OF a RUN FLAT INSERT SYSTEM for the HEMTT CLASS WHEELED VEHICLES

C.1 BACKGROUND

The Department of Defense (DOD) has specific wheeled vehicles critical for maintaining military mission support and transportation of military supplies. These vehicles are used by joint organizations and meet certain design criteria for general driveline performance. As part of the performance requirements, the vehicles are operationally tested for various environments and different ground conditions. All having a common need to maintain vehicle mobility, if a tire failure were to occur.

Based on previous work in support of PM LTV in conjunction with NACs mission objectives outlined in CRADA #04-15 was implemented to develop run-flat technology.

C.2 PROGRAM OBJECTIVE

The current fleet of Heavy Tactical Trucks (HTT) requires the use of having an available spare tire to be field replaceable allowing any intended mission be completed. Added weight and storage space to house the spare tire reduces the wheeled vehicle capabilities for maximum utilization. The use of a Run Flat system capable of meeting defined distances and load requirements would benefit and ultimately help support our Soldiers.

C.3 SCOPE OF WORK

The contractor as an independent contractor and not as an agent of the Government shall implement the following tasks:

- C.3.1 The contractor shall determine the feasibility of developing a high-load Run Flat Tire Insert System for the HTT fleet and platform systems. This would include prototyping a wheel/tire assembly capable of supporting loads up to 10,000 pounds in a deflated condition. The effort shall have the following target goals:
 - C.3.1.1 Tire and wheel assembly to be compatible with the current fleet of Heavy Tactical Trucks and platform systems.
 - C.3.1.2 Performance target of 15 miles at a load of 10,000 pounds/assembly.
 - C.3.1.3 Provide a positive tractive attachment for maximum torque transfer.
 - C.3.1.4 Provide a bead-locking system for low pressure, increased footprint operation.
 - C.3.1.5 Field serviceable using minimal tools and fixtures.
 - C.3.1.6 Environmental capable for harsh conditions and low/high temperature operation.
 - C.3.1.7 User friendly for ease of field replacement with minimal training.
 - C.3.1.8 Central Tire Inflation System (CTIS) friendly-No lubricant is required for the DD Run Flat.

C.4 TASK DESCRIPTION

- C.4.1 The contractor shall outline an approach for the Design and Development of a Run Flat Insert System for the Heavy Expanded Mobility Tactical Truck (HEMTT).
 - C.4.1.1 Parameters as defined in C.3.1.1, C.3.1.2, C.3.1.3, C.3.1.4, C.3.1.5, and C.3.1.6 will be used as measurable goals for the Run Flat technology.
 - C.4.1.2 The contractors approach shall address the following areas:

H-11 52.246-4026 LOCAL ADDRESSES FOR DD FORM 250 AND WAWF RECEIVING REPORTS SEP/

- SEP/2006
- (a) The Contractor may use either the Material Inspection and Receiving Report (DD 250) or Wide Area Workflow (WAWF) to process receiving reports for inspection, acceptance, and payment. Use only one method per contract; not both.
- (b) If you are using the Material Inspection and Receiving Report (DD 250), use one of the following methods to send each DD 250 pertaining to this contract to us:

If this documentation is requested, use the same email address or fax number shown in paragraph (b) above to submit the information. No copies of the WAWF Receiving Report are required unless specifically requested by the PCO, buyer, or other appropriate government official.

- (2) The Government has validated all mandatory data fields, to include validation of the Taxpayer Identification Number (TIN) with the Internal Revenue Service (IRS), and has marked the record ``Active''. NOTIFICATION OF EMPLOYEE RIGHTS CONCERNING PAYMENT OF UNION DUES OR FEES

DEC/2004

(a) Definition. As used in this clause --

United States means the 50 States, the District of Columbia, Puerto Rico, the Northern Mariana Islands, American Samoa, Guam, the U.S. Virgin Islands, and Wake Island.

(b) Except as provided in paragraph (e) of this clause, during the term of this contract, the Contractor shall post a notice, in the form of a poster, informing employees of their rights concerning union membership and payment of union dues and fees, in conspicuous places in and about all its plants and offices, including all places where notices to employees are customarily posted. The notice shall include the following information (except that the information pertaining to National Labor Relations Board shall not be included in notices posted in the plants or offices of carriers subject to the Railway Labor Act, as amended (45 U.S.C. 151-188)).

Notice to Employees

Under Federal law, employees cannot be required to join a union or maintain membership in a union in order to retain their jobs. Under certain conditions, the law permits a union and an employer to enter into a union-security agreement requiring employees to pay uniform periodic dues and initiation fees. However, employees who are not union members can object to the use of their payments for certain purposes and can only be required to pay their share of union costs relating to collective bargaining, contract administration, and grievance adjustment.

If you do not want to pay that portion of dues or fees used to support activities not related to collective bargaining, contract administration, or grievance adjustment, you are entitled to an appropriate reduction in your payment. If you believe that you have been required to pay dues or fees used in part to support activities not related to collective bargaining, contract administration, or grievance adjustment, you may be entitled to a refund and to an appropriate reduction in future payments.

For further information concerning your rights, you may wish to contact the National Labor Relations Board (NLRB) either at one of its Regional offices or at the following address or toll free number:

National Labor Relations Board Division of Information 1099 14th Street, N.W. Washington, DC 20570 1-866-667-6572 1-866-316-6572 (TTY)

Such other sanctions or remedies may be imposed as are provided by 29 CFR part 470, which implements Executive Order 13201, or as are otherwise provided by law.

- (3) Contractor establishments or construction work sites located in a jurisdiction named in the definition of the United States in which the law of that jurisdiction forbids enforcement of union-security agreements;
- (4) Contractor facilities where upon the written request of the Contractor, the Department of Labor Deputy Assistant Secretary for Labor-Management Programs has waived the posting requirements with respect to any of the Contractor's facilities if the Deputy Assistant Secretary finds that the Contractor has demonstrated that--

- (2) <u>Directly requires the use of CIODS</u> means that the Government's specification or technical data package, at any tier, explicitly requires the use of any Class I Ozone-Depleting Substance (CIODS) in performance of the contract.
- (3) <u>Indirectly requires the use of CIODS</u> means that the Government's specification or technical data package, while not explicitly requiring the use of any CIODS, does require a feature that you can meet or produce only by the use of CIODS.
- (b) Per Section 326 of Public Law 102-484, the Department of Defense cannot award any contract that directly or indirectly requires the use of CIODS unless (i) the use of such substances is essential for contract performance, and (ii) no suitable substitute for the CIODS currently is available.
- (c) Before releasing this solicitation, we conducted a best effort review of its technical requirements, standards, and specifications, to see if any contain requirements for CIODS. If we identified any such CIODS requirements, they are identified in subparagraph (d)(1) below.
- (1) In addition, to help TACOM meet its obligations under Public Law 102-484, we ask you for input. If you have any special knowledge about any CIODS requirements that our specifications impose, whether directly or indirectly, or if you know about potential substitutes for any CIODS required by our specifications, we would appreciate the information.
- (2) It should be understood that you are not obligated to give us the information requested by this provision, and that we cannot provide any separate or special payment for doing so. However, we are asking only for information based on knowledge that is readily available to you as a supplier in this industry. We do not expect you to do any review of our specifications more extensive than the one you perform in order to develop your price.
 - (d) Please summarize your own review of our specification/technical data package, by completing the following:

- (e) Offerors who check <u>have</u> in paragraphs (d)(1) or (2) above also are requested to say whether substitutes are known to be available for any of the CIODS. If an available substitute would perform less well than the CIODS would perform, please let us know what the technical trade-offs are to the extent that you have such information available.
- (f) If you checked $\underline{\text{have}}$ in paragraphs (d)(1) or (2) above, and also indicated that substitutes for CIODS are available, we need to know whether use of the suggested substitute would have any effect on your proposed price. If your proposal price for compliance with our current specifications differs from what your price would be if the substitute for CIODS were required, we ask that you let us know what the difference would be in Section B of this solicitation, by giving us two prices or offers:
 - --One price/offer, labeled with CIODS, will be the offered price in the event that CIODS are used.
- --The second price/offer, labeled <u>without CIODS</u>, will be the price offered if substitutes for CIODS are used, and will specify the substitute(s) being proposed for use.
- (g) Section 326 of Public Law 102-484 reflects the national and international interest in minimizing the use of CIODS. For this reason, TACOM reserves the right to (i) determine the suitability of substitutes for CIODS when such potential substitutes are available; and (ii) change the specification in any contract awarded as a result of this solicitation, to require the use of suitable substitutes in lieu of CIODS.
